Subject index

A

- Acetylation, polymorphic, of dapsone in man (Gelber et al.), 225
- Affinity constants, drug-albumin, rapid method for estimation in human plasma (Solomon and Thomas), 445
- Albumin, fetal, neonatal, and adult human plasma, binding of sulfaphenazole to (Chignell et al.), 897
- Albumin-drug affinity constants in human plasma, rapid method for estimation (Solomon and Thomas), 445
- Alcohol, marihuana, and dextroamphetamine, hunger and appetite after single doses of (Hollister), 44
 - influence on motor and mental performance (Manno et al.), 202
- Allopurinol, effect on hyperuricemia of fasting (Drenick, Fisler, and Dennin), 68
- American Society for Clinical Pharmacology and Therapeutics
 - Program for Seventy-Second Annual Meeting, 281
 - Abstracts of papers, 285
- Amphetamine euphoria in man, blockade of intravenous (Jönsson, Ånggård, and Gunne), 889
 - methamphetamine, ephedrine, phenmetrazine, and methylphenidate, physiologic, subjective, and behavioral effects, in man (Martin et al.), 245
- Ampicillin and kanamycin concentrations in joint fluid (Baciocco and Iles), 858
- Anabolic steroids, studies on (Limbeck et al.), 798
- Analgesic activity of oral and intramuscular profadol (Pearson, Lasagna, and Laird), 683
 - drugs, oral, new method for assessing clinical effects of (Jick et al.), 456
 - nephropathy, review of literature, 1967-1970 (Abel), 583
- Anemia, aplastic, and leukopenia, drug-induced (Pisciotta), 13
- Anesthetics, local, efficacy of, in blocking sensations of itch, burning, and pain in normal and "sunburned" skin (Dalili and Adriani), 913
- Announcements, 309, 1019
- Antiarhythmic drug, new (SU-13197), fate of, in rat and man (Shand, Cavanaugh, and Oates), 769

- Antibiotics, comparative merits, study of hospital staff attitudes concerning (Macaraeg, Lasagna, and Bianchine), 1
 - tolerance and serum levels after intravenous administration of multiple large doses of lincomycin (Novak et al.), 793
- Anticonvulsant properties, early human studies of new carbonic anhydrase inhibitor (NSD 3004) with (Lund et al.), 902
- Antilipidemic effect of nafenoic acid (Russo and Mendlowitz), 676
- Anxiety, predictors of chlordiazepoxide response in (Rickels, Downing, and Howard), 263
- Aplastic anemia and leukopenia, drug-induced (Pisciotta), 13
- Appetite and hunger after single doses of marihuana, alcohol, and dextroamphetamine (Hollister), 44
- 1- β -D-Arabinofuranosyl cytosine, clinical pharmacology of (Ho and Frei), 944
- Arterial hypertension, effects of guanyldine on systemic and renal hemodynamics in (Villarreal et al.), 838
- Asparaginase, diabetes in patients treated with (Gailani et al.), 487
- Atropine, effects on ECG in different age groups (Dauchot and Gravenstein), 274
 - of large intramuscular doses, on cardiac rhythm (Hayes, Copelan, and Ketchum), 482

B

- Behavior, alterations in, due to levodopa (Goodwin et al.), 383
- Benzodiazepines, effect of, upon saccadic eye movements in man (Gentles and Thomas), 563
- Biostatistics, clinical (See under Clinical biostatistics)
- Biotransformation and pharmacodynamics of pentaerythritol trinitrate in man (Davidson et al.), 972
- Biscoumacetate, ethyl, effect of methylphenidate and prolintane on metabolism (Hague et al.), 259
- Book reviews
 - A Companion to Medical Studies (Passmore and Robson), 153
 - Penicillin Allergy, Clinical and Immunologic Aspects (Stewart and McGovern), 153
 - Population, Species and Evolution (Mayr), 306
 - The Wolf: The Ecology and Behavior of an Endangered Species (Mech), 306
 - Microsomes and Drug Oxidations (Gillette), 306

January-February, pp. 1-162; March-April, part 1, pp. 163-316; part 2, pp. 317-416; May-June, pp. 417-562; July-August, pp. 563-724; September-October, pp. 725-882; November-December, pp. 883-1036.

Book reviews—Cont'd

- Chemical Mutagenesis (Vogel and Röhrborn), 562
- Digitalis Intoxication (Chung), 722
- Actions of Alcohol (Wallgren and Barry), 722
- Epidemiology of Non-Communicable Disease (Acheson), 722
- Digitalis Intoxication (Grinspoon), 880
- The Marihuana Smoker (Goode), 880
- Report of the Study of Critical Environmental Problems, Man's Impact on the Global Environment (Wilson), 880
- Undesirable drug interactions and interferences (Garb), 1017
- Handbook of drug interactions (Swidler), 1017
- Books received, 154, 307, 562, 723, 881, 1018
- Brain dopamine, selective rise in, by inhibition of extracerebral levodopa decarboxylation (Pletscher and Bartholini), 344
- Bupivacaine, intravenous toxicity and clearance of, in man (Mather, Long, and Thomas), 935
- Burning in normal and "sunburned" skin, efficacy of local anesthetics in blocking (Dalili and Adriani), 913

C

- Carbamazepine-induced acceleration of diphenylhydantoin and warfarin metabolism in man (Hansen, Siersbæk-Nielsen, and Skovsted), 539
- Carbenicillin preparation, oral, human pharmacology and clinical evaluation of (Bran, Karl, and Kaye), 525
- Carbonic anhydrase inhibitor, new (NSD 3004), with anticonvulsant properties, early human studies of (Lund et al.), 902
- Cardiac rhythm, effects of large intramuscular doses of atropine on (Hayes, Copelan, and Ketchum), 482
- Cardiovascular disease, present status of glucagon in (Kones and Phillips), 427
- effects and central nervous system effects of lorazepam in man (Elliott et al.), 468
- of levodopa (Goldberg and Whitsett), 376
- of marihuana smoking in normal volunteers (Johnson and Domino), 762
- Catecholamines and mania, effect of alpha-methyl-para-tyrosine on (Brodie et al.), 218
- Central nervous system and cardiovascular effects of lorazepam in man (Elliott et al.), 468
- Chemotherapy, combination, remission induction of adult acute leukemia with (Rodriguez, Gutterman, and Scotti), 963
- Chlordiazepoxide response in anxiety, predictors of (Rickels, Downing, and Howard), 263
- Chlorpromazine and thioridazine, comparison of, in doctor's choice research design (Kimbell et al.), 825

- Choreoathetoid movement disorder induced by levodopa (Markham), 340
- "Chronology bias," source of, in cohort statistics: clinical biostatistics (Feinstein), 864
- Clinical biostatistics (Feinstein)
 - VII. The rancid sample, the tilted target, and the medical poll-bearer, 134
 - VIII. An analytic appraisal of the University Group Diabetes Program (UGDP) study, 167
 - IX. How do we measure safety and efficacy?, 544
 - X. Sources of 'transition bias' in cohort statistics, 704
 - XI. Sources of 'chronology bias' in cohort statistics, 864
 - XII. On exorcising the ghost of Gauss and the curse of Kelvin, 1003
- Clinical Pharmacology, Washington Conference on (Carr), 725
- Clofibrate and nafenopin: comparative clinical therapeutic trial (Dujovne, Weiss, and Bianchine), 117
- Codeine, dose response to, in patients with chronic cough (Sevelius, McCoy, and Colmore), 449
- and secobarbital, hypnotic effects of, and their interaction in man (Bellville et al.), 607
- Cohort statistics, sources of chronology bias in: clinical biostatistics (Feinstein), 864
- transition bias in: clinical biostatistics (Feinstein), 704
- Controlled drug assay in hypertension, technique (Pilewski et al.), 843

influence on halothane metabolism in twins (Cascorbi et al.), 50
poison, lead as (Hardy et al.), 982
- Ephedrine, phenmetrazine, methylphenidate, amphetamine, and methamphetamine, physiologic, subjective, and behavioral effects, in man (Martin et al.), 245
- Epileptic patients treated with diphenylhydantoin, cortisol production in (Werk et al.), 698
- Eskalith (lithium carbonate) (Official lit. new drugs), 314
- Ethanol metabolism in man, genetic and environmental factors affecting (Vesell, Page, and Passananti), 192
- Ethyl biscoumacetate, effect of methylphenidate and prolintane on metabolism (Hague et al.), 259
- Euphoria, intravenous amphetamine, in man, blockade of (Jönsson, Ånggård, and Gunne), 889
- Exorcising ghost of Gauss and curse of Kelvin (Feinstein) (Clin. biostat.), 1003
- Eye movements, saccadic, in man, effect of benzodiazepines upon (Gentles and Thomas), 563
- F*
- Fasting, hyperuricemia of, effect of allopurinol on (Drenick, Fisler, and Dennin), 68
- Fatty acid, free, glucose, and insulin metabolism in Parkinson's disease treated with levodopa (Van Woert and Mueller), 360
- Fluid, joint, ampicillin and kanamycin concentrations in (Baciocco and Iles), 858
- Flurazepam hydrochloride (Dalmane) (Official lit. new drugs), 160
and placebo, effects on sleep patterns in insomniac subjects (Kales et al.), 691

G

- Gas chromatography-mass spectrometry of nor-
triptyline in body fluids of man (Ham-
mar et al.), 496
- Gastrointestinal drugs, nonsystemic, interaction of
warfarin and (Robinson, Benjamin, and
McCormack), 491
- Gauss, ghost of, and curse of Kelvin, on exorcising
(Feinstein) (Clin. biostat.), 1003
- Genetic and environmental factors affecting etha-
nol metabolism in man (Vesell, Page,
and Passananti), 192
- influence on halothane metabolism in twins
(Cascorbi et al.), 50
- Glucose, insulin, and free fatty acid metabolism
in Parkinson's disease treated with levo-
dopa (Van Woert and Mueller), 360
- Glucagon, present status in cardiovascular disease
(Kones and Phuijs), 427
- Glutethimide, disposition of, in man (Curry et
al.), 849
- CPA-1657, profadol, and propiram in man, studies
of dependence-producing properties of
(Jasinski, Martin, and Hoeldtke), 613
- Granulocytic leukemia, acute, cytosine arabinoside
in (Goodell, Leventhal, and Hender-
son), 599
- Growth retardation, uncomplicated, effects of
oxandrolone on height and skeletal ma-
turation in (Limbeck et al.), 798
- Guanacydine, effects of, on systemic and renal
hemodynamics in arterial hypertension
(Villarreal et al.), 838
- in hypertension, hemodynamic and therapeutic
effects (Hammer, Ulrych, and Freis), 78
- Guanethidine, absorption and metabolism in hy-
pertensive patients requiring different
doses (McMartin and Simpson), 73

H

- Halofenate (MK-185), uricosuric, hypolipidemic,
and thyroxine-displacing effects of
(Morgan et al.), 517
- Halothane metabolism in twins, genetic and en-
vironmental influence on (Cascorbi et
al.), 50
- Height, effects of oxandrolone on (Limbeck et
al.), 798
- Hemodynamics, systemic and renal, in arterial
hypertension, effects of guanacydine on
(Villarreal et al.), 838
- Hemorrhagic shock, mechanism of lack of bene-
ficial response to inotropic drugs in
(Lefer et al.), 506
- Heroin, actions and metabolism of, administered
by continuous intravenous infusion to
man (Elliott et al.), 806
- Hospital staff attitudes concerning comparative
merits of antibiotics, (Macaraeg, La-
sagna, and Bianchine), 1

- Hunger and appetite after single doses of mari-
huana, alcohol, and dextroamphetamine
(Hollister), 44
- Hydrochlorothiazide, comparison of, with new
quinethazone diuretic, metolazone
(Pilewski et al.), 843
- Hypercalcemia, new approach to treatment (Slay-
ton et al.), 833
- Hypertension, arterial, effects of guanacydine on
systemic and renal hemodynamics in
(Villarreal et al.), 838
- controlled drug assay in, technique (Pilewski et
al.), 843
- hemodynamic and therapeutic effects of guan-
acydine in (Hammer, Ulrych, and Freis),
78
- Hypertensive patients, absorption and metabolism
of guanethidine in, on different dosages
(McMartin and Simpson), 73
- Hyperuricemia of fasting, effect of allopurinol on
(Drenick, Fidler, and Dennin), 68
- Hypnotic effects of codeine and secobarbital and
their interaction in man (Bellville et
al.), 607
- Hypolipidemic drugs, comparative clinical trial
with two: clofibrate and nafenopin
(Dujovne, Weiss, and Bianchine), 117
- and thyroid hormone effects of sodium dextro-
triiodothyronine (Danowski et al.), 126
- uricosuric, and thyroxine-displacing effects of
MK-185 (halofenate) (Morgan et al.),
517

I

- Imidazole carboxamine, characteristics of progno-
sis and response to, in malignant mela-
noma (Nathanson et al.), 955
- Imipramine metabolism: pH-dependent distribu-
tion and urinary excretion (Gram et al.),
239
- Inotropic drugs in hemorrhagic shock, mechanism
of lack of beneficial response to (Lefer
et al.), 506
- Insomniac subjects, effects of placebo and fluraze-
pam on sleep patterns in (Kales et al.),
691
- Insulin, glucose, and free fatty acid metabolism
in Parkinson's disease treated with levo-
dopa (Van Woert and Mueller), 360
- Itch in normal and "sunburned" skin, efficacy of
local anesthetics in blocking (Dalili and
Adriani), 913

J

- Joint fluid, ampicillin and kanamycin concentra-
tions in (Baciocco and Iles), 858

K

- Kanamycin aerosol, safety of (Lifschitz and Den-
ning), 91

Kanamycin—Cont'd

and ampicillin concentrations in joint fluid
(Baciocco and Iles), 858

Kelvin, curse of, and ghost of Gauss, on exorcising
(Feinstein) (Clin. biostat.), 1003

L

Lead as environmental poison (Hardy et al.), 982

Leukemia, acute granulocytic, cytosine arabinoside in
(Goodell, Leventhal, and Henderson), 599

adult acute, remission induction of, with combination
chemotherapy (Rodriguez, Gutterman, and Scotti), 963

Leukocytosis and lithium (Shopsin, Friedmann, and
Gershon), 923

Leukopenia and aplastic anemia, drug-induced,
(Pisciotta), 13

Levodopa administration in man, plasma dopa
response to: effects of peripheral decarboxylase inhibitor
(Dunner, Brodie, and Goodwin), 212

alterations in behavior due to (Goodwin et al.), 383

cardiovascular effects of (Goldberg and Whittsett), 376

clinical evaluation of, in treatment of parkinsonism
(Langrall and Joseph), 323

choreoathetoid movement disorder induced by
(Markham), 340

decarboxylation, extracerebral, selective rise in
brain dopamine by inhibition of (Pletscher and Bartholini), 344

Levodopa and parkinsonism (Cotzias et al.), 319

clinical impressions (Yahr), 332

clinical laboratory abnormalities (McDowell), 335

symposium on, 317-416

and Ro 4-4602, treatment of parkinsonism with
(Barbeau, Gillo-Joffroy, and Mars), 353

sleep in patients with parkinsonism and normal
subjects before and after (Kales et al.), 397

treatment of parkinsonism, glucose, insulin, and
free fatty acid metabolism in (Van Woert and Mueller), 360

phenylalanine and tyrosine metabolism on
(Van Woert), 368

Lidocaine, pharmacokinetics in man (Boyes et al.), 105

Lincomycin, antibiotic tolerance and serum levels
after intravenous administration of multiple large doses of
(Novak et al.), 793

Lipophilic bis-phenol, probucol, metabolic and
endocrine indices during administration of
(Danowski et al.), 929

Lithane (lithium carbonate) (Official lit. new
drugs), 157

Lithium carbonate (Eskalith) (Official lit. new
drugs), 314

Lithium carbonate—Cont'd

(Lithane) (Official lit. new drugs), 157

and leukocytosis (Shopsin, Friedmann, and
Gershon), 923

Lorazepam, central nervous system and cardiovascular
effects, in man (Elliott et al.), 468

Lung tissue and serum levels of methacycline
(Timmes, Demos, and Chong), 920

M

Mania and catecholamines, effect of alpha-methyl-
para-tyrosine on (Brodie et al.), 218

Marihuana, alcohol, and dextroamphetamine,
hunger and appetite after single doses of
(Hollister), 44

influence on motor and mental performance
(Manno et al.), 202

cardiovascular effects in normal volunteers
(Johnson and Domino), 762

Medical and nonmedical uses of pharmacologically
active agents, relationships among (Estes and
Johnson), 883

Medrogestone, treatment of benign prostatic
hypertrophy with (Rangno et al.), 658

Melanoma, malignant, characteristics of prognosis
and response to imidazole carboxamide
(Nathanson et al.), 955

Mental and motor performance, influence of alcohol
and marihuana on (Manno et al.), 202

Metabolic and endocrine indices during administration
of lipophilic bis-phenol, probucol
(Danowski et al.), 929

Metabolism, halothane, in twins, genetic and
environmental influence on (Cascorbi et al.), 50

of L-3-O-methyldopa, a precursor of dopa in
man (Kuruma et al.), 678

Methacycline, lung tissue and serum levels of
(Timmes, Demos, and Chong), 920

Methamphetamine, amphetamine, ephedrine,
phenmetrazine, and methylphenidate,
physiologic, subjective, and behavioral
effects, in man (Martin et al.), 245

Methyldopa, L-3-O-, precursor of dopa in man,
metabolism of (Kuruma et al.), 678

Methylphenidate, amphetamine, methamphetamine,
ephedrine, and phenmetrazine,
physiologic, subjective, and behavioral
effects, in man (Martin et al.), 245

and prolintane, effect on metabolism of ethyl
biscoumacetate (Hague et al.), 259

Metolazone, new quinethazone diuretic, comparison
of, with hydrochlorothiazide
(Pilewski et al.), 843

Mithracin (mithramycin) (Official lit. new
drugs), 310

Mithramycin (Mithracin) (Official lit. new
drugs), 310

- MK-185 (halofenate), effects on thyroid function (Ryan et al.), 464
uricosuric, hypolipidemic, and thyroxine-displacing effects of (Morgan et al.), 517
Monoamine precursors in treatment of depression (Carroll), 743
Motor and mental performance, influence of alcohol and marihuana on (Manno et al.), 202
Myocardial infarction, electrophysiologic basis of use of polarizing solution in treatment of (Prasad and Callaghan), 666

N

- Nafenoic acid, antilipidemic effect of (Russo and Mendlowitz), 676
Nafenopin and clofibrate: comparative clinical therapeutic trial (Dujovne, Weiss, and Bianchine), 117
Nephropathy, analgesic, review of literature, 1967-1970 (Abel), 583
Nervous system, central, and cardiovascular effects of lorazepam in man (Elliott et al.), 468
Nortriptyline in body fluids of man, mass spectrometry-gas chromatography of (Hammar et al.), 496

O

- Official literature on new drugs, 310, 314
Oxandrolone, effects on height and skeletal maturation in uncomplicated growth retardation (Limbeck et al.), 798
Oxypertine and thiothixene in newly admitted schizophrenic patients (Hollister et al.), 531

P

- Pain in normal and "sunburned" skin, efficacy of local anesthetics in blocking (Dalili and Adriani), 913
Panel discussion: Levodopa and Parkinson's disease, 407
Parkinsonism, clinical evaluation of levodopa in treatment of (Langrall and Joseph), 323 and levodopa (Cotzias et al.), 319 clinical impressions (Yahr), 332 laboratory abnormalities (McDowell), 335 symposium on (see March-April, part 2), 317-416
sleep in, before and after levodopa administration (Kales et al.), 397
treated with levodopa, glucose, insulin, and free fatty acid metabolism in (Van Woert and Mueller), 360
phenylalanine and tyrosine metabolism in (Van Woert), 368
with levodopa and Ro 4-4602 (Barbeau, Gillo-Joffroy, and Mars), 353

- Parkinsonism, treatment of—Cont'd
with L-dopa, emotional disturbance accompanying (Cheifetz et al.), 56
Pentaerythritol trinitrate, pharmacodynamics and biotransformation of, in man (Davidson et al.), 972
pH-dependent distribution and urinary excretion of imipramine (Gram et al.), 239
Pharmacodynamics and biotransformation of pentaerythritol trinitrate in man (Davidson et al.), 972
Pharmacologic effects and distribution of drug (Gibaldi, Levy, and Weintraub), 734
Pharmacologically active agents, relationships among medical and nonmedical uses (Estes and Johnson), 883
Pharmacology, clinical, of 1- β -D-arabinofuranosyl cytosine (Ho and Frei), 944
old wine in new bottles (Moran), 417
Phenmetrazine, methylphenidate, amphetamine, methamphetamine, and ephedrine, physiologic, subjective, and behavioral effects, in man (Martin et al.), 245
Phenylalanine and tyrosine metabolism in Parkinson's disease treated with levodopa (Van Woert), 368
Plasma, human, rapid method for estimation of drug-albumin affinity constants in (Solomon and Thomas), 445
Poison, environmental, lead as (Hardy et al.), 982
Polarizing solution, use in treatment of myocardial infarction, electrophysiologic basis of (Prasad and Callaghan), 666
Polls, medical: The rancid sample, the tilted target, and the medical poll-bearer (Feinstein) (Clin. biostat.), 134
Probucol, lipophilic bis-phenol, metabolic and endocrine indices during administration of (Danowski et al.), 929
Profadol, oral and intramuscular, analgesic activity of (Pearson, Lasagna, and Laird), 683
propiram, and GPA-1657 in man, studies of dependence-producing properties of (Jasinski, Martin, and Hoeldtke), 613
Prolintane and methylphenidate, effect on metabolism of ethyl biscoumacetate (Hague et al.), 259
Propiram, GPA-1657, and profadol in man, studies of dependence-producing properties of (Jasinski, Martin, and Hoeldtke), 613
Propranolol (Corbascio) (Correspondence), 559
Prostatic hypertrophy, benign, treatment of, with medrogestone (Rangno et al.), 658
Pseudoephedrine, determination in human plasma, sensitive assay for (Kuntzman et al.), 62
plasma half-life of, in man and dog, influence of urinary pH on (Kuntzman et al.), 62

Q

- Quinethazone diuretic, new (metolazone), comparison of, with hydrochlorothiazide (Pilewski et al.), 843

R

- Renal function and diazoxide in man (Johnson), 815
and systemic hemodynamics in arterial hypertension, effects of guanidine on (Villarreal et al.), 838
Ro 4-4602 and levodopa, treatment of parkinsonism with (Barbeau, Gillo-Joffroy, and Mars), 353

S

- Saccadic eye movements in man, effect of benzodiazepines upon (Gentles and Thomas), 563
Safety and efficacy, how do we measure (Feinstein) (Clin. biostat.), 544
Schizophrenic patients, newly admitted, thiothixene and oxypertine in (Hollister et al.), 531
Secobarbital and codeine, hypnotic effects of, and their interaction in man (Bellville et al.), 607
Serum and lung tissue levels of methacycline (Timmes, Demos, and Chong), 920
Shock, hemorrhagic, mechanism of lack of beneficial response to inotropic drugs in (Lefer et al.), 506
Side effects, extraordinary, of drugs (Kupfer and Detre), 575
Skeletal maturation, effects of oxandrolone on (Limbeck et al.), 798
Skin, normal and "sunburned," efficacy of local anesthetics in blocking sensations of itch, burning, and pain in (Dalili and Adriani), 913
Sleep in patients with Parkinson's disease and normal subjects prior to and following levodopa administration (Kales et al.), 397
patterns in insomniac subjects, effects of placebo and flurazepam on (Kales et al.), 691
Sodium bicarbonate, decrease of tetracycline absorption in man by (Barr, Adir, and Garretson), 779
Spectrometry, mass-gas chromatography of nortriptyline in body fluids of man (Hammar et al.), 496
Statistics, cohort, source of "chronology bias" in: clinical biostatistics (Feinstein), 864
transition bias in: clinical biostatistics (Feinstein), 704
Steroids, anabolic, studies on (Limbeck et al.), 798
SU-13197, new antiarrhythmic drug, fate of, in rat and man (Shand, Cavanaugh, and Oates), 769

- Sulfaphenazole, binding of, to fetal, neonatal, and adult human plasma albumin (Chignell et al.), 897

T

- Tetracycline absorption in man, decrease of, by sodium bicarbonate (Barr, Adir, and Garretson), 779
Tetrahydrocannabinol in man, dose-response analysis of effects of (Kiplinger et al.), 650
Thioridazine and chlorpromazine, comparison of, in doctor's choice research design (Kimbell et al.), 825
Thiothixene and oxypertine in newly admitted schizophrenic patients (Hollister et al.), 531
Thyroid function, effects of MK-185 on (Ryan et al.), 464
hormone and hypolipidemic effects of sodium dextrotriiodotyrosine (Danowski et al.), 126
Thyroxine-displacing, uricosuric, and hypolipidemic effects of MK-185 (halofenate) (Morgan et al.), 517
Toxicity and clearance, intravenous, of bupivacaine in man (Mather, Long, and Thomas), 935
Transition bias in cohort statistics, sources of: clinical biostatistics (Feinstein), 704
Tyrosine, alpha-methyl-para-, effect on manic behavior and catecholamine metabolism (Brodie et al.), 218
and phenylalanine metabolism in Parkinson's disease treated with levodopa (Van Woert), 368

U

- UGDP (University Group Diabetes Program) study, analytic appraisal (Feinstein) (Clin. biostat.), 167
Uricosuric, hypolipidemic, and thyroxine-displacing effects of MK-185 (halofenate) (Morgan et al.), 517
Urinary excretion and pH-dependent distribution of imipramine (Gram et al.), 239
pH, influence on plasma half-life of pseudoephedrine in man and dog (Kuntzman et al.), 62
Urine collection, twenty-four hour: vicissitudes in research (Turner and Merlis), 163
and diphenylhydantoin metabolism in man, carbamazepine-induced acceleration (Hansen, Siersbæk-Nielsen, and Skovsted), 539

W

- Warfarin and nonsystemic gastrointestinal drugs, interaction of (Robinson, Benjamin, and McCormack), 491
Washington Conference on Clinical Pharmacology (Carr), 725
